Regarding: Buy American provision

The Buy American provision in the National School Lunch Program (NSLP) and School Breakfast Program (SBP) regulations [7 Code of Federal Regulations (CFR) Part 210.21(d) and 220.16(d)], is a procurement standard that School Food Authorities (SFAs) must comply with when purchasing commercial food products served in the school meals. The Buy American provision instructs SFAs to purchase, to the maximum extent practicable, domestic commodities or products for use in meals served under the NSLP and SBP. For purposes of this provision, a domestic commodity or product is one that is produced and processed in the United States substantially using agricultural commodities that are produced in the United States. USDA has interpreted “substantial” to mean that over 51 percent of the final processed product consists of agricultural commodities that were grown domestically. Exceptions to the Buy American provision allow for the purchase of products not meeting the “domestic” standard in circumstances where either (1) the product is not produced or manufactured in the U.S. in sufficient and reasonably available quantities of a satisfactory quality; or (2) competitive bids reveal the costs of a U.S. product are significantly higher than the non-domestic product. (See USDA memo SP 38-2017.)

We, General Mills, Inc., certify that all products listed on the following pages are eligible for purchase based on the provisions described above.

General Mills K12 Foodservice  
Number One General Mills Boulevard  
Minneapolis, MN 55426
